

**June 2007 update to integrating resources training materials**

Changes include updating to reflect implementation of bibliographic level code “i” by OCLC, use of the continuing resources format for textual integrating resources, and revision of references of past practices throughout the manual. General changes throughout include typo corrections, reformatting of pages to improve readability and some cosmetic changes. Appendix A for workforms was removed and the forms moved to the sessions that require them, sessions 2 and 3, in the trainee manual. The appendices were renumbered and references to them changed. Other specific changes are listed below.

<b>Slide/Note page</b>	<b>Change</b>
<b>Session 1</b>	
<b>Session 1 Exercises</b>	
<b>Session 2a</b>	
slide 17	changed 008 to continuing resources format, fixed country code, should be mdu
